

**SYSTEMS, METHODS, AND COMPUTER-READABLE MEDIA FOR ENROLLING
CONFEREES FOR EXPEDITED ACCESS TO CONFERENCING SERVICES**

ABSTRACT OF THE DISCLOSURE

Systems, methods, and computer-readable media of enrolling conferees to receive
5 conferencing services. Methods to achieve the foregoing can comprise: receiving a request from
the conference call host to enroll in conferencing services; receiving data representing a unique
identifier relating to the conference call host; providing data representing access information to
the enrolled conference call host, wherein the given conference call host can request access to a
given conference call using the access information; and configuring a component of a system
10 related to supporting the conference call to connect the conference call host directly to the
conference call in response to recognition of the access information or the unique identifier in a
communication from the conference call host.
